Subject: Regarding Internship opportunities for students

Dear Sir/Madam,

This is to inform you that AICTE has partnered with Intershala, an organization which offers internships to students from various fields of study. To make our students more employable, internship has been made mandatory for engineering students by AICTE. In this regard, Intershala has approached the Department of Science & Technology, Bihar for Winter Internship opportunities in top companies like PUMA Sports India, Senvion Wind Energy Solutions, Nexus Waters, Wasteland Mineral LLP, Teach for India etc.

The department is keen on getting the students registered on the Intershala website and securing winter internship positions in top companies. In this regard you are requested to:

1. Get the students of 2nd year and 3rd year of all branches to register on the website: <https://internshala.com/>
2. Nominate one faculty member as coordinator from each branch who will:
 - a. Create awareness among students regarding the internship opportunities
 - b. Help students in the registration process on Intershala
 - c. Keep track of the students who successfully secure internships through Intershala.
3. Provide a branch-wise list of registered students to the department on email ID dst.bsdm@gmail.com

I would like 100% of the students of your institution belonging to 2nd and 3rd year to register themselves on internshala for their better employability. In case of any clarification in this regard, Sri Afroz Afzal, OSD in the department may be contacted on mobile no. 7046701604.

Your faithfully,

Director,
Department of Science & Technology,
Bihar, Patna
