- Bihar the emerging destination for IT Companies.
- Attracting Investments in IT, ITeS and IT Literacy
- Developing IT Parks in Bihar
- Electronic Manufacturing Clusters in Bihar
- Improving the digital connectivity across the state of Bihar

About Us

The progress made by Bihar in the various public domains such as education, health, housing, infrastructure etc. bears testimony to the commitment of the government towards improving the economy of the state and ensuring that there is general level of prosperity. Through the creation of right kind of policy & regulations, better urban infrastructure and conducive social environment, the Government of Bihar is now making pioneering efforts to attract investments in IT/ITeS sectors.

Bihar is amongst the few states in the country that have seen a huge growth in electronic citizen services delivery. Infrastructure development for providing better e-Governance services has also been happening across in Bihar. Various projects such as State Wide Area Network (SWAN), State Data Centre (SDC), Common Service Centre (CSC), and various Mission Mode Projects (MMPs) such as State Portal (SSDG), e-District, CCTNS (Police) etc. are being implemented in the State. The state government is effectively using IT to make the administration quick, responsive, transparent, hassle-free and accessible, while reducing the inefficiencies and costs.

The State is home to large number of educated and skilled young people. The level of digital literacy in today's youth in Bihar is very high. The Government of Bihar recognises the need of helping the IT industry growth so that the youth of the state have ample opportunities for finding suitable jobs. The flourishing of the IT industry is also seen as a precursor to the improvement in the employment status of the state and improvement in the governance framework. The youth should not have just the bare level of job opportunities; they should have access to the best possible jobs in IT.

"e-Bihar 2015", by means of discussions, ideation and collaboration will strive to derive comprehensive strategies for rapid development of IT industry in the state. Thought leaders, Visionaries, Policy Makers and leaders of national and international IT companies/consulting firms will come together at this conference to discuss & explore the opportunities that Bihar offers for IT industry.

The participants from Government and Private Sectors will take an in-depth and critical view in each of the following areas:

- ◆ The policies that the Government of Bihar has undertaken for growth of IT/ITeS sector in Bihar
- ◆ Bihar – The land of unlimited opportunities for IT companies
- ◆ Improving urban infrastructure for attracting investments
- ◆ Creating Smart IT Cities/IT Hubs/IT Parks for faster growth of IT sector
- ◆ Attracting investments in IT for providing more job opportunities to the state's youth
- ◆ How to develop Bihar as Hub of electronic manufacturing goods.
- ◆ Improve employment & revenue opportunities

Structure of e-Bihar

CONFERENCE: We will have vibrant sessions on the use of ICT for bringing more efficiency and transparency in the areas of Governance, Education & Health.

EXHIBITION: The IT initiatives of various government departments and private companies can be showcased in this area.

AWARDS: Awards will be conferred to acknowledge the innovative ICT initiatives that are driving the quality & access to services in State Governance, Education and Healthcare
