FOREWORD

The formulation of various National guidelines is an important part of the mandate given to the National Disaster Management Authority (NDMA). The National Disaster Management Act, 2005 also mandates authorities at different level to develop a comprehensive disaster management plan at each level.

NDMA's guiding principles for the preparation of the Plan at state and district level has been to draft the Plan in a participatory approach with the preparatory process essentially strengthening the communities, elected local bodies and administration's response and preparedness. NDMA envisages an ideal Disaster Management Plan that ensures local ownership, addresses local needs, and promotes volunteerism and mutual help to prevent and minimize damage.

Therefore, I appreciate the efforts of Bihar State Disaster Management Authority and Madhubani District Disaster Management Authority in partnership with Sphere India, EFICOR and Tearfund for executing our envisioning and guiding principles and developing this model District Disaster Management Plan (DDMP) for Madhubani. I would also like to appreciate the guidance of members of National, State and District Advisory in this endeavor.

I am extremely pleased with the deep involvement, support and cooperation of various stakeholders from community, line departments and other important groups in the preparation of the DDMP Madhubani. I am hopeful that the Madhubani District Disaster Management Plan and its process guidelines would inspire other Districts to follow the multistakeholder participatory approach.

Bihar State Disaster Management Authority
Government of Bihar

PREFACE

National Disaster management Act, 2005 mandates for development of comprehensive and holistic District Disaster Management Plan (DDMP) to negate the impact of disasters on the communities, to facilitate timely and effective response to the disasters, and to facilitate holistic disaster management through integration of mitigation, preparedness and DRR measures into development.

India has different geographical characteristics and hazard scenarios in different regions which becomes more complex due to varied socio-economical settings. For each scenario, the Plan would be different to effectively deal with the complexities of the region. Therefore, Bihar State Disaster Management Authority always advocated that for different scenarios and contexts model DDMPs should be made which would serve as guidance for similarly vulnerable Districts.

BSDMA along with National Disaster Management Authority, Sphere India, Tear Fund, EFICOR and other like minded organizations came together to draft model DDMPs for varied hazard scenarios. As a first step, National Advisory Body was set to conceptualize our ideas and decide on Districts for piloting of model DDMPs.

The District of Madhubani was chosen for the first pilot to demonstrate a systematic, dynamic and practical DDMP due to its multi hazard profile of recurrence of floods, Drought, Earth Quake (Zone-V), Fire incidents, Heat waves, Cold waves and High Winds and the prevalence of socio-economic vulnerabilities. Once the district was finalized, a State level Advisory Body at Patna, Bihar and District Advisory Body at Madhubani, Bihar was set up to guide and take forward the process.

I am very pleased that the implementing partners Sphere India, EFICOR, Tearfund, Bihar Inter Agency Group and Inter Agency Group (IAG)-Madhubani have been very meticulous in their approach and have followed every step of the process guideline developed by the Advisory Bodies.

I am elated by this Madhubani District Disaster Management Plan as it has been developed in a consultative manner with constant inputs and feedbacks from all the stakeholders. This Plan has moved beyond the reactive relief based approach and has a concise plan of actions for 53 different stakeholders at District level for disaster risk reduction, emergency response and recovery. The Plan also lays out the coordination structures at varied levels along with defined level for response as per the impact of the incident.

I hope that this plan will be widely used by all the stakeholders in Madhubani encouraging us to make participatory multi-stakeholder plan for other districts of Bihar as well.

Vice-Chairman, BSDMA

ACKNOWLEDGMENTS

At the outset, I must express my sincere thanks to all the Members of the National, State and District Advisory Bodies for their invaluable contribution and whole-hearted cooperation to guide the process of developing Model District Disaster Management Plan for Madhubani. But for conceptualization, active guidance as well as high standard of the technical inputs and feedbacks from them, it would have not been possible to bring out this much needed Plan for holistic management of disasters in Madhubani.

I would like to express my gratitude to Shri. T. Nanda Kumar, Honorable Member, NDMA for his guidance, critical review, inputs and motivating all those involved with the Plan. My gratitude and sincere thanks are also to Shri. Anil Sinha, Vice-Chairman, BSDMA for choosing Madhubani as the pilot for model DDMP and his constant guidance to the DDMA and the executing team.

I would like to appreciate the efforts of Sphere India, Tearfund, EFICOR, Inter agency Group Bihar and Inter Agency Group Madhubani for the execution of ideas and benchmarks set by the Advisory Bodies. I would like to place on record that I was extremely pleased by the sincerity of executing team for its effort to involve all the stakeholders and developing local capacities.

I would also like to thank the members of Inter Agency Group Madhubani for its enthusiasm in taking forward the development of Plan and establishing local coordination mechanisms. From District Disaster Management Authority, I would like to thank Mr. A.K. Gupta – ADM Revenue and In-Charge – Disaster Management, Mr. Raman Prasad Clerk Disaster Management and other staff of DDMA for all the effort and time that they have constantly extended for the development of this Plan.

Finally, I must place on record my gratitude and appreciation to all the individuals of various stakeholders group who have participated in various consultations and discussions and have given their inputs, comments and feedbacks as this Plan would not have been possible without your ideas and knowledge and experience sharing. I anticipate that this Plan developed through you would be widely implemented by you all.

I sincerely hope that the DDMP for Madhubani would be widely implemented and constantly revised by all the stakeholders collaboratively and contribute in achieving a disaster resilient Madhubani.

Plan developed on	:	June 2013
Next review and updation due in	:	April 2014
Database updation schedule	:	Every April and October month (every six month)
Mock drill schedule	:	May month of every year (pre-monsoon)

HOW TO USE PLAN

Madhubani DDMP is divided into the following main volumes:

1. **Volume-1: DRR AND MITIGATION PLAN:** This volume (also referred as Green Book) enlists the specific actions to be taken during non-disaster time for DRR and mitigation measures. This includes mainstreaming of DRR into development; capacity building; Functional continuity actions; and Emergency Preparedness. This also enlists various structural and non-structural as well as hazard specific mitigation measures and strategies.

This volume also gives details of context of Madhubani which includes general situation; Hazard, Vulnerability & Capacity Analysis; Problem Analysis; Micro analysis of villages' vulnerability; DDMP development Strategy; and Stakeholders analysis. This particular section is specifically useful to you if you are new to the district and like to understand the general situation, history, and broader context of the district.

It also covers details of the various institutions at district level & their roles / responsibilities in disaster management. This also gives information on good practices like ESF, IRS, URS, DMT and QRT etc. for coordination and integration among different stakeholders. This volume also describes the linkages with other districts, divisions, state and national level as per the level of disaster and the emerging needs. Implementation of plan; the responsibility and accountability; financial provisions; and follow-up actions at different levels are also described in this volume.

2. **Volume-2: DISTRICT RESPONSE PLAN:** This volume (also referred as Red Book) enlists the specific actions to be performed at district level in case of any disaster situation. The key response actions are divided into various phases including Actions on Receipt of Early Warning; Response Activation; Relief and Response; Deactivation of Response; and Recovery Actions alongwith enlisting disaster specific contingency actions. This also covers setting up of Field EOC.
3. **Volume-3: CHECKLISTS, FORMATS AND RESOURCE DATABASE:** There is a separate compilation of useful checklists, assessment formats and database of resources available in the district alongwith the contact lists etc. This can be referred as and when required.
4. **Volume-4: SPECIFIC ACTION PLANS FOR DIFFERENT STAKEHOLDERS:** Apart from the above main volumes, there are specific action plans prepared for different stakeholders at various levels. There are specific action plans for 27 line departments, 13 Gram Panchayat level committees, and 13 other key non-govt. stakeholders at district level. These action plans are compiled in two separate booklets for each stakeholder groups. These booklets are, (1) Red Book – for response actions during emergencies, and (2) Green Book – for DRR and mitigation actions during non-emergency period.

Others:.....								
3.C) Sanitation								
Defecation practices								
Open Air	Toilets	If open air, how far is the place						
		If toilets, are they being used now?						
% families using open space	% of families having toilets	If camp, How many toilets are there in the camp?						
		How many people are living in the camp?						
Do you find evidence of human waste in the open?		Type of toilet?						
		Are the toilets clean?						
Is the defecation practise a threat to water supplies?		How far is the water source?						
		Are the toilets secured?						
Notes/Remarks:								

3.D) Solid Waste Disposal			
Do You find evidence of sewage in open, both at household level and in general?	Yes	No	Notes/Remarks:
Is there any solid waste disposal bins in the household level?	Yes	No	
What will be the estimated quantity of solid waste produced?	Yes	No	
Is there any existing waste collection mechanism?	Yes	No	
Is there any existing waste disposal mechanism?	Yes	No	
Is there any proper drainage facility at the household level or at the site?	Yes	No	
3.E) Vector Borne Diseases			
Is there any evidence/reporting of vector borne disease in the area	Yes	No	
If yes, what type of disease is reported?			
How many people are affected?			
Who are the primarily affected groups?			
Who are the vulnerable groups?			
Are there any existing vector control measures?	Yes	No	
If yes, what are they?			
Are people aware of vector control measures?			

SECTION 4: HEALTH AND MEDICAL

3.A) Safe Drinking Water			
What is the status of mortality and morbidity?			
What is the crude and under five mortality rates?			
What are the principal causes of death (e.g. malnutrition, measles, injury, Acute Respiratory infection (ARIs),)?			
What are the principle causes of morbidity including measles, diarrheal disease, ARIs, malaria, injuries) and who is primarily affected?			
Health facilities operational	Number	Capacity	Location
Mobile Health Units Available with	Govt	NGO's	UN Agencies
Are more mobile health units required? If yes, for how long.			
Availability of medical professionals			

Availability of laboratories	
Availability of facilities for deliveries	
Status of Animal medical facilities	
Mortality and morbidity status of livestock? And reasons.	
Unmet needs for livestock health care	
Availability of essential medicines and medical consumables in the affected area	
Drugs	
IV fluids	
Syringes and needles	
Blood bank	
ORS	
Vaccines	
Serums	
Contraceptives	
Dressing and bandages	
Surgical Supplies	
Antiseptics	
Disinfectants	
Blood transfusion and infusion sets	
Availability of capacity for correction of disabilities	

SECTION 5: NON-FOOD ITEMS

Total number of households needing assistance.

Types and average numbers needed per household:

Items	Numbers (Approximate)
Plastic Sheetting	
Clothing and type	
Washing/cleaning	
Transport	
Cooking: Fuel/Stoves	
Heating	
Blankets/Quilts/Mattresses	
Family toilet kits/Hygiene kits	
Water containers for storage	
Cooking/kitchen utensils	
Disinfectants (Phenyl, Dettol, Chlorine, Bleaching powder, etc.)

No of families remaining on the site of their damaged/destroyed shelter					
Number of families displaced and accommodated by host families					
Number of families displaced and accommodated collectively within existing publicly or privately owned houses such as schools, temples, community houses, etc					
Displaced and collectively settled in newly built relief camps/temp shelters.					
Availability and number of temporary shelters	For people	For livestock			
Public buildings which are being used as temporary shelters and their capacity					
Types of temporary shelters	Tents	Polythene Sheets	Tarpaulin Sheets	Tin Sheets	Straw and pullas
Accessibility of vulnerable and marginalized groups to temporary shelters					
Need for additional temporary shelters and their expected duration					
Structural Damage	Degree of damage				
Types of Structures	Totally collapsed	Major damage and unsafe for use	Significant damage, unsafe for use, repairable in short term	Some damage, safe for use	Minor or no damage. safe for use
Houses					
Pvt buildings					
Public buildings					
Govt buildings					
Predominant type of structure and construction materials used					
Type of roof and covering					
Percentage of building can be retrofitted in short time					
Any damage reported to the local building and construction industry					

SECTION 7: LIVELIHOOD

Major livelihood pattern and options for the community	Pre-disaster	Post-disaster
Extent of damage to livelihood		
Extent of loss of employment opportunity and likely migration		

Number and types of workers affected	Cultivators	Agriculture Labourers	Unskilled Labourers	Skilled
Extent of damage to fisheries	Equipment /boats	Loss of catch	Processing facilities	
Existence of any risk cover schemes /insurance				
Steps taken and Resources available by Govt. and NGOs for restoration of livelihood for different types of workers				
7.1) Agriculture				
1.	Amount crop totally lost in the area.			
2.	How much of the available land is cultivable?			
3.	Where in the cropping cycles are farmers, e.g. harvest, preparation, planting			
4.	Number of households still have the following:			
	Current season's crops(s)			
	Multiple seasons' crop(s)

ADDITIONAL INFORMATION:

AVERAGE GLOBAL POPULATION STRUCTURE

The following table gives an indicator of the average global population structure broken down by age. However, it is important to note that this is context-specific and can vary significantly. For example, in some rural communities, out-migration of middle generations has resulted in disproportionately high numbers of older people caring for children. In case of relief camps, the percentage of women may be little higher than men.

Table: average global population structure broken down by age

Group	% of Population
0 - 6 months	1.32
7 - 11 months	0.95
1- 3 Years	6.58
4 - 6 Years	6.41
7 - 9 Years	6.37
10 - 18 Years females	9.01
10 - 18 Years males	9.52
19 - 50 females	17.42
51 - 65 females	4.72
19 - 65 males	27.90
65 + females	2.62
65 + males	2.18
Pregnant	2.40
Breastfeeding	2.60
