Dear Colleague,

The iGOT portal, developed under the DoPT's Mission Karmayogi, is a comprehensive digital learning platform offering structured, self-paced and domain-specific training content to all levels of government functionaries. It allows flexible access to quality learning material that can be used anytime and from anywhere.

सचिव (K)

2. The capacity building of engineers, PIU personnel and all stakeholders involved in rural road construction is crucial to ensure quality, durability and sustainability of roads under the Pradhan Mantri Gram Sadak Yojana (PMGSY). In line with this objective and leveraging digital learning platforms, NRIDA, a technical arm of Ministry of Rural Development, has uploaded following three highly relevant technical courses on the iGOT (Integrated Government Online Training) portal to strengthen the knowledge base and practical skills of field-level officials.

- (i) **Cell Filled Concrete Pavement** (2 hr 10 min) – Covers design principles, material selection, construction process, quality control and cost-benefit aspects and cost-effective technique for low-volume roads.
- (ii) **Full Depth Reclamation** (2 hr 05 min) – Introduces eco-friendly rehabilitation of distressed pavements through in-situ recycling, reducing reconstruction costs and environmental impact.
- (iii) **Whitetopping – Short Panelled Cement Concrete Pavement** (2 hr 10 min) – Details the overlaying technique of thin concrete roads to improve longevity and ride quality.

343/DS(mg)

3. These courses are tailored to enhance the technical competence of officials involved in rural connectivity projects, ensure better implementation outcomes, reduce life cycle costs and promote sustainable construction technologies. These courses can be accessed on the iGOT portal under the courses of Department of Rural Development.

4. I request you to kindly advise all the engineers, PIU personnel and relevant stakeholders engaged in PMGSY road construction in your State to register themselves on iGOT portal and undertake these courses at the earliest. Their successful completion would significantly contribute towards quality control/assurance in rural infrastructure development.

5. Shri Devinder Kumar, Director (RC), MoRD is the nodal officer for iGOT-related queries/assistance in the matter.

With regards,

Yours sincerely,

[Shailesh Kumar Singh]

The Additional Chief Secretaries/Principal Secretaries/Secretaries of
Nodal Department/CEOs of SRRDA/Empowered Officer/
E-in-Cs/Chief Engineers of all States/UTs dealing with PMGSY/RCPLWEA.
