Acc. GAO

Shri Pratyaya Amrit, I.A.S.
Chief Secretary, Govt. of Bihar,
Main Secretariat, Patna - 800015

Respected Sir,

Greetings from the Indian Society for Trenchless Technology (IndSTT).

The Indian Society for Trenchless Technology (IndSTT) is pleased to invite nominations from your esteemed State for an **Indo-German Training Workshop on "Sewers and Quality Assurance: Rehabilitation with CIPP Liners (SQuAre-CIPP)"**, scheduled on **1-2 April 2026** at **The BMK Hotel, Greater Kailash Enclave-I, New Delhi**. The programme is being **jointly organised by IndSTT and IKT - Institute for Underground Infrastructure, Germany**.

With the rapid expansion of sewerage infrastructure under **AMRUT, AMRUT 2.0, Smart Cities Mission, and Swachh Bharat Mission (Urban)**, **CIPP-based sewer rehabilitation** is increasingly adopted across Indian cities. Recent incidents of **sewer-related water contamination, including the unfortunate deaths reported in Indore**, have highlighted the urgent need for **strong quality assurance, supervision, and performance verification** in such projects.

The workshop will focus on:

- Quality and performance requirements for CIPP liners
- Supervision and monitoring of sewer rehabilitation works
- Material testing, acceptance criteria, and failure prevention
- International best practices and lessons relevant to Indian conditions

We earnestly request your office to **"direct concerned departments such as the Municipal Corporations, Jal Boards, Urban Development Departments, Public Works Departments, and other related agencies"** to actively participate in this important event. Their engagement will help them gain first-hand exposure to proven global solutions and interact with technology providers, researchers, and industry experts working on practical applications to **'eliminate water logging, prevent accidents, and improve infrastructure resilience'**.

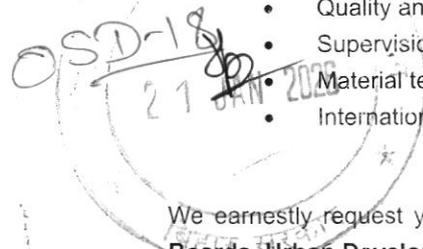

A detailed brochure with programme structure, schedule, and registration details is enclosed for your kind reference. We would be grateful for your support in **nominating suitable officers** to participate in this important capacity-building initiative.

For any further information, you may kindly contact **Mr. Vinay Singh Rawat** (☎ 9717203923 | ✉ rawat@indstt.com) or **Mr. Anand Kumar Singh** (☎ 9873010226 | ✉ anand@indstt.com).

We look forward to your kind support and participation.

SQuARe CIPP – Quality Assurance in Sewer Rehabilitation

Workshop Program Agenda

DAY 1 – 1st April 2026	
Time	Session
09:00–09:30	Opening Session – Welcome by IKT & IndSTT, Workshop Objectives
09:30–10:15	Keynote: Global Perspectives on CIPP Rehabilitation – Dr. P. R. Swarup, Chairman, IndSTT
10:15–10:30	Break
10:30–12:00	Session 1: Basics of Rehabilitation and Host Pipe Condition Classes – Prof. Dr.-Ing. Bert Bosseler (IKT)
12:00–13:00	Lunch Break
13:00–14:30	Session 2: Principles of CIPP Lining and Static Evaluation – Prof. Dr.-Ing. Bert Bosseler (IKT)
14:30–14:45	Break
14:45–16:00	Interactive Workshop: Real Project Cases, QA Challenges, and Lessons Learned – Ashwini Ausekar (IKT)

DAY 2 – 2nd April 2026	
Time	Session
09:00–10:30	Session 3: Installation Methods, Materials, Curing Processes, and Quality Challenges – Dr. Iain Naismith (IKT)
10:30–10:45	Break
10:45–12:15	Session 4: CIPP Liners for Gravity Sewer Rehabilitation – Quality Aspects from the Network Operator Perspective – Dieter Homann, Director of Material Testing, IKT
12:15–13:15	Lunch Break
13:15–14:15	Session 5: CIPP Liners for Pressure Sewer Rehabilitation – Dieter Homann, Director of Material Testing, IKT
14:15–14:30	Break
14:30–15:30	Session 6: Collaborative Research Opportunities – International Collaboration (LinKa) – Dr. Iain Naismith, International Project Manager
15:30–16:00	Session 7: World Sewer Operators: Research, Testing, and Seminar Collaboration – India and Germany
16:00–16:30	Closing Session – Panel Discussion on Innovations in Quality Assurance, Summary, Participant Feedback, Next Steps, Certificate Distribution, and Group Photo

SQuARe CIPP – Quality Assurance in Sewer Rehabilitation

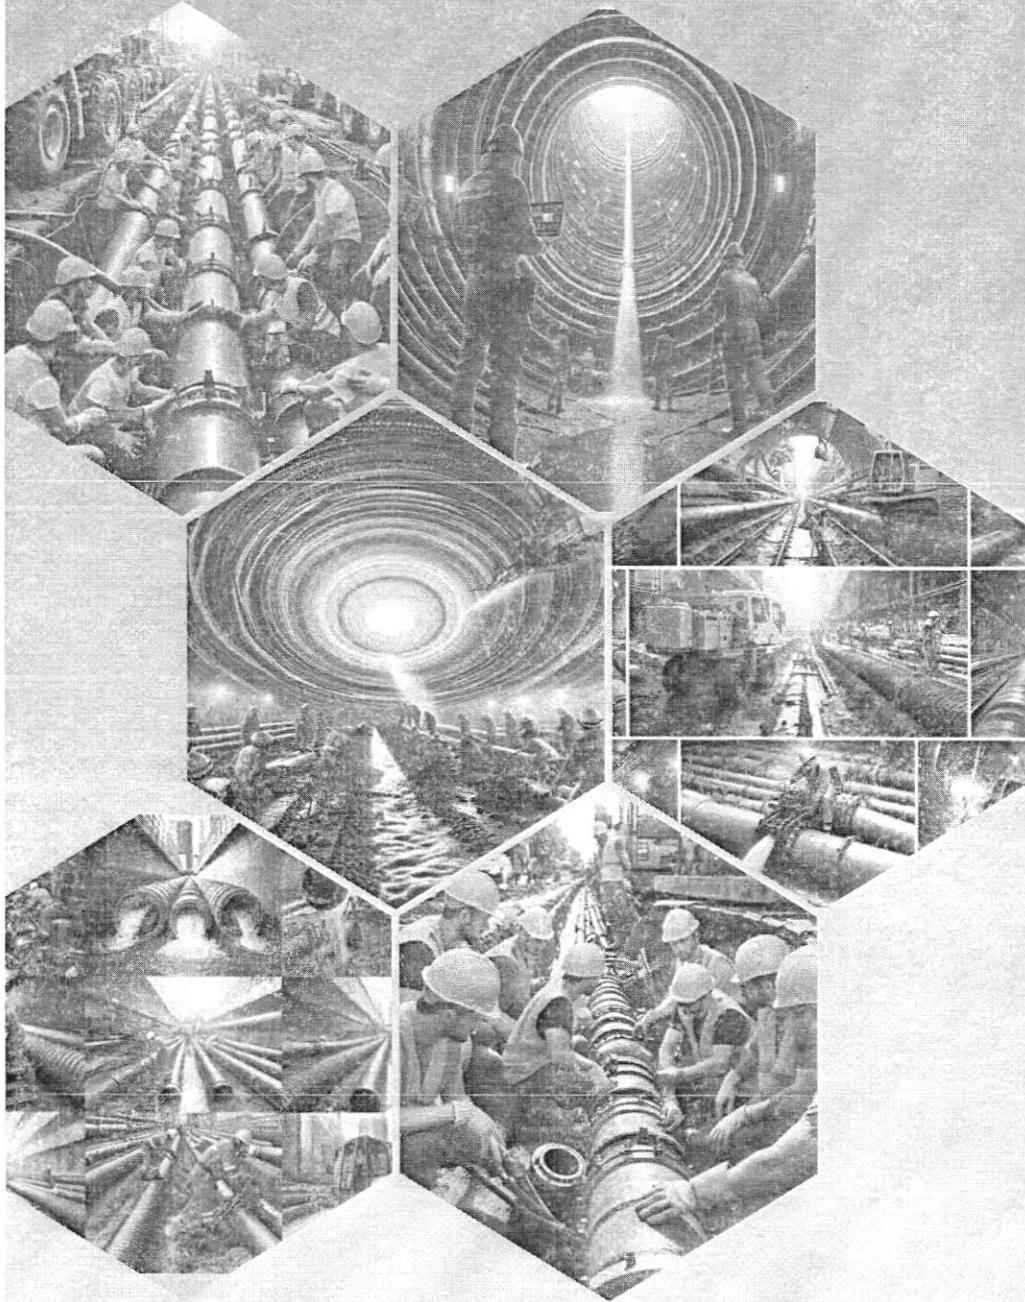

61

Sewers and Quality Assurance: Rehabilitation with CIPP Liners

"A Specialized Training on Construction Supervision, Material Testing & Indian Practice"

on April 01 - 02, 2026

The BMK Hotel, Greater Kailash Enclave 1, New Delhi, India

Organized by:

Training Partner:

IKT - Institute for Underground Infrastructure

Why This Workshop Matters

Cured-in-Place Pipe (CIPP) lining has become one of the most widely adopted trenchless rehabilitation methods for sewer and pipeline renewal in both India and Germany. Its advantages are clear—minimal surface disruption, faster execution, environmental protection, and cost efficiency.

However, unlike conventional pipe replacement, CIPP creates a new pipe underground on the day of installation. The final product cannot be visually inspected before installation, making quality assurance and construction supervision absolutely critical.

Experience from international projects has shown that:

- Inadequate site supervision can lead to structural deficiencies
- Insufficient material testing may compromise liner performance
- Lack of standardised QA procedures can result in premature failures

This workshop directly addresses these challenges by focusing on quality assurance from the network operator's perspective, supported by proven German testing, research, and supervision practices.

Workshop Focus Areas

This workshop brings together Indian and German expertise to discuss practical, field-level quality assurance for CIPP rehabilitation projects.

Key discussion themes include:

- Construction site supervision and monitoring practices
- Quality control during liner installation and curing
- Sampling methods and laboratory testing of CIPP liners
- Common installation challenges and troubleshooting
- Case studies of failures and lessons learned
- Comparison of international standards, codes, and regulations
- Identifying research gaps relevant to Indian conditions

Participants will gain actionable insights that can be directly applied in tendering, supervision, and acceptance of CIPP projects.

Who Should Attend

- Municipal & utility engineers
- Sewer network operators
- Consultants & designers
- Contractors & technology providers
- Researchers & testing laboratories
- Policy makers and regulators

Role of Indian Society for Trenchless Technology (IndSTT)

The Indian Society for Trenchless Technology (IndSTT), established in 1995, is the apex body promoting trenchless and no-dig technologies in India.

Over the past three decades, IndSTT has played a key role in:

- Organised the annual No-Dig India Show
- Published codes of practice and technical guidelines
- Conducted national training programs and workshops
- Advised government agencies on specifications and QA protocols

Through this workshop, IndSTT continues its mission of raising quality benchmarks and enabling structured technology transfer for India's underground infrastructure sector.

Training Institute – IKT – Institute for Underground Infrastructure, Germany

Founded in 1994, the Institute for Underground Infrastructure (IKT) is a globally recognised, independent research and testing organisation dedicated to sewer and pipeline systems.

IKT's expertise includes:

- Accredited testing of CIPP liners and construction products
- Long-term performance research and forensic investigations
- Operator-driven research through its KomNetAbwasser network (200+ utilities)
- Advanced professional training and international conferences

IKT's research findings form the backbone of many European quality standards and guidelines for trenchless rehabilitation.

Strategic Value of the SQuARe-CIPP Workshop

This Indo-German collaboration will:

- Support development of Indian CIPP quality guidelines
- Promote internationally accepted QA/QC practices
- Enable technology validation under Indian conditions
- Identify future joint research and pilot projects
- Build long-term capacity among engineers and operators

Registration Information

Fee: 16000 + GST (18%)

Group Discounts: Special rates for groups of 04 or more from a single organization is applicable.

PARTNERSHIP OPPORTUNITIES

Principal Partner	Rs. 2 Lakhs* / US\$ 3,000*
Main Partner	Rs. 1 Lakhs* / US\$ 2,000*
Associate Partner	Rs. 50 Thousand* / US\$ 1,000*

*18% GST extra
